**Investment Philosophy**

We believe that the investment grade fixed income market misprices default and call risk. Therefore, we strive to outperform our relevant fixed income benchmark by concentrating our investments in Corporate bonds, Agency Mortgage-backed securities, Commercial Mortgage-backed securities and Asset-backed securities. We carefully manage the risk in these sectors with a quality bias and extensive diversification.

**Account Minimum:** \$7 Million

**Core Government/Corporate** composite is comprised of investment grade only fixed income securities that span the full maturity spectrum. The main emphasis in this composite is to construct a diversified portfolio of high grade Corporate debt that can be enhanced with Agency Mortgage-backed bonds, Commercial Mortgage-backed securities (CMBS) and Asset-backed securities (ABS). Treasuries and Agency debentures are utilized for yield curve and duration management. All of our holdings in this product are taxable and U.S. dollar denominated. The portfolios utilize no leverage and hold no derivative securities.
